

EQUIPMENT ACCESSORY CATALOG

Equipment accessories make your dock function exactly how you want it to. Would you like a power outlet on the end of your dock? A ladder halfway to your patio? The equipment accessories will allow you to get the most utility out of your dock.

EQUIPMENT ACCESSORIES

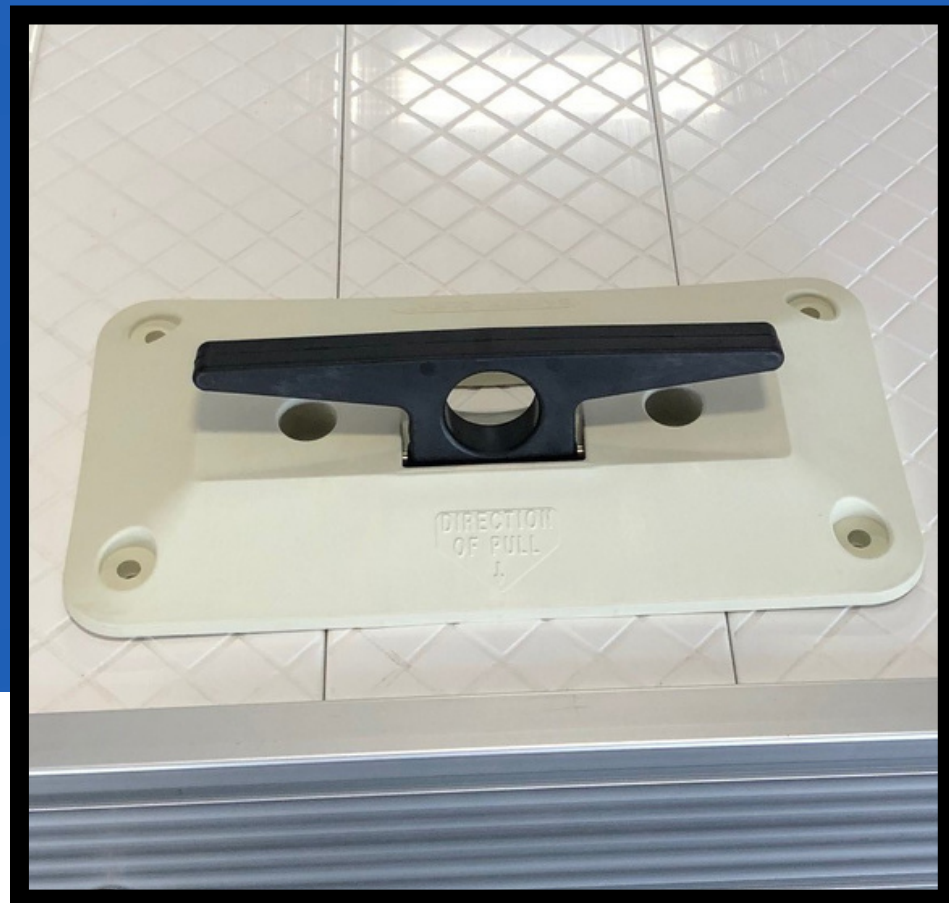

Decking Protection

Are you planning on mooring (docking) boats from your dock? We have bumper solutions to protect both dock and the boat taking harbor.

Bumpers

Fold Down Cleat

EQUIPMENT ACCESSORIES

Added-on Stability

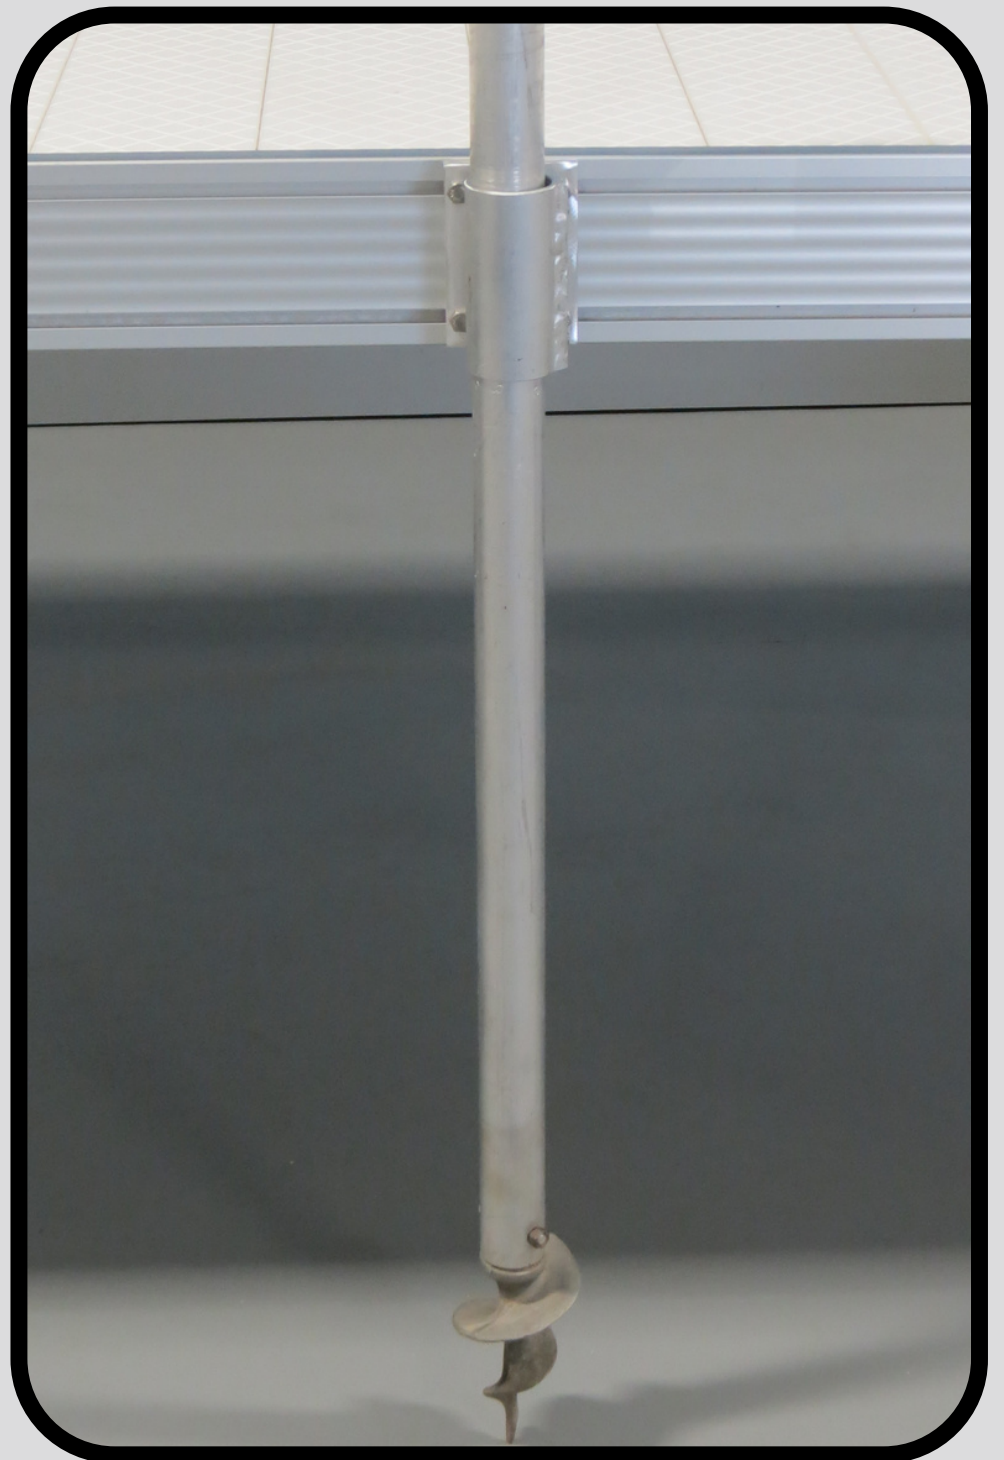

After surveying your lakefront, your local dealership will understand what kind of bracings footpads you may need to keep your dock stable. Here are an assortment of options they may give you.

Stability Options

Standard Brace

Deep Water Brace

Auger Tie Down

EQUIPMENT ACCESSORIES

Accessibility

Swim Ladder

A long time favorite, swim ladders are made of aluminum with adjustable legs. No drilling required. Comes in 3, 4, and 5 step variants.

Stairs

Available in tan grey and white, our stairs are a safe and trustworthy way to get people (and often dogs) in and out of the water!

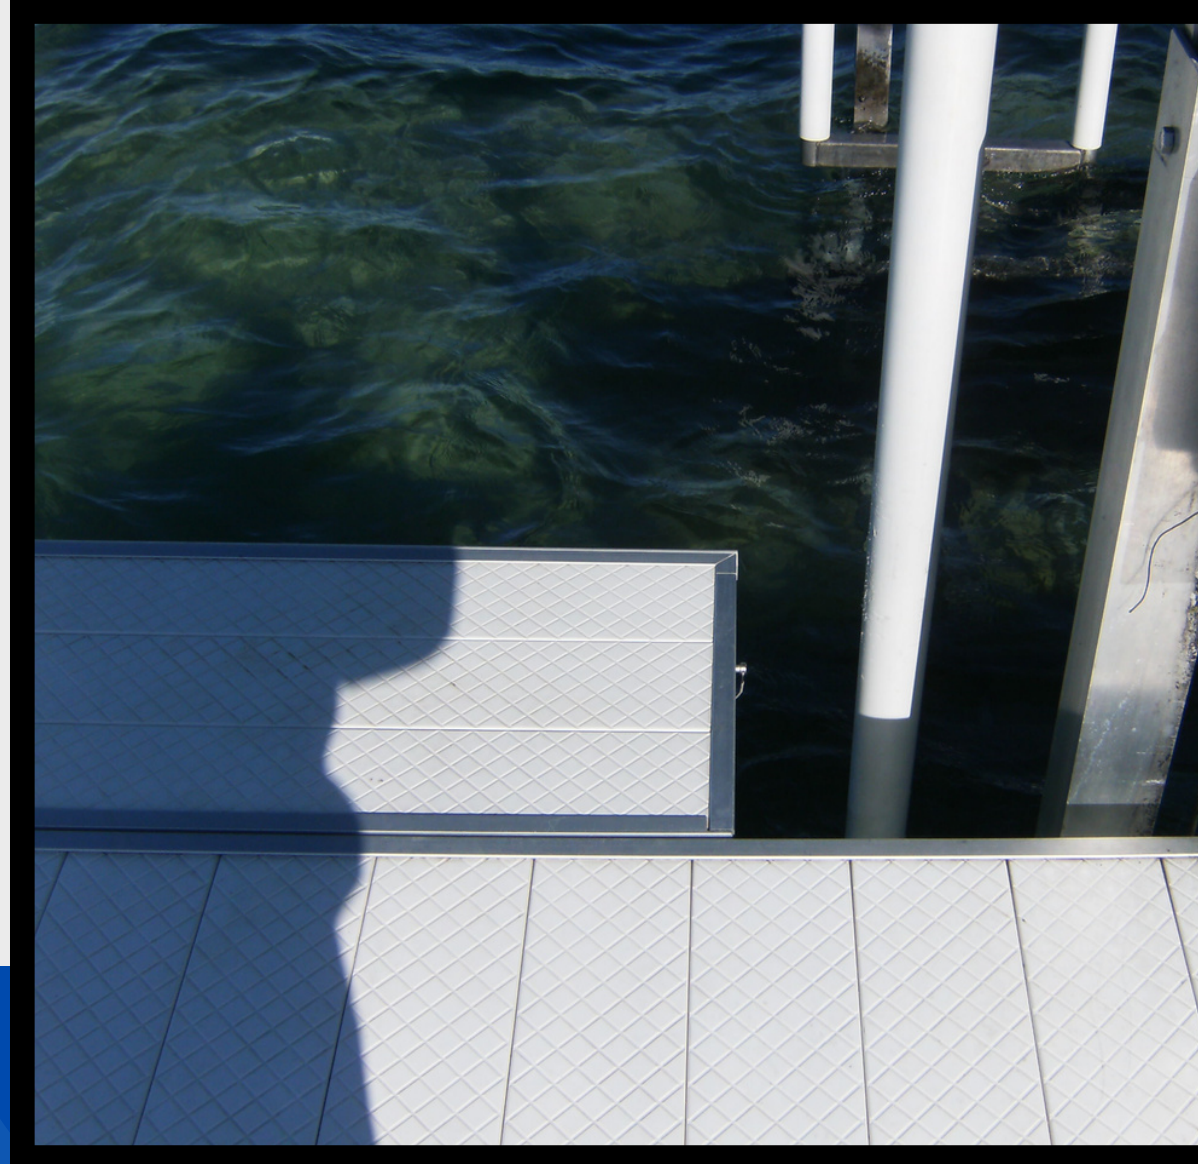

EQUIPMENT ACCESSORIES

Dock Step

The dock step is a simple solution to loading onto your boat. It provides extra stability and won't interfere with your lift.

Dock Step Down Bracket

You can create a long stairway using dock sections with our step-down brackets. A great way to get down to the lake.

EQUIPMENT ACCESSORIES

Power Pedestal

Want water or electrical hookup at the end of your dock? The power Pedestal is the simple solution to using them consistently, efficiently, and safely.

Utility Channel

The utility channel connects to the underside of your dock, hiding and protecting cords and hoses you may have on your dock system.

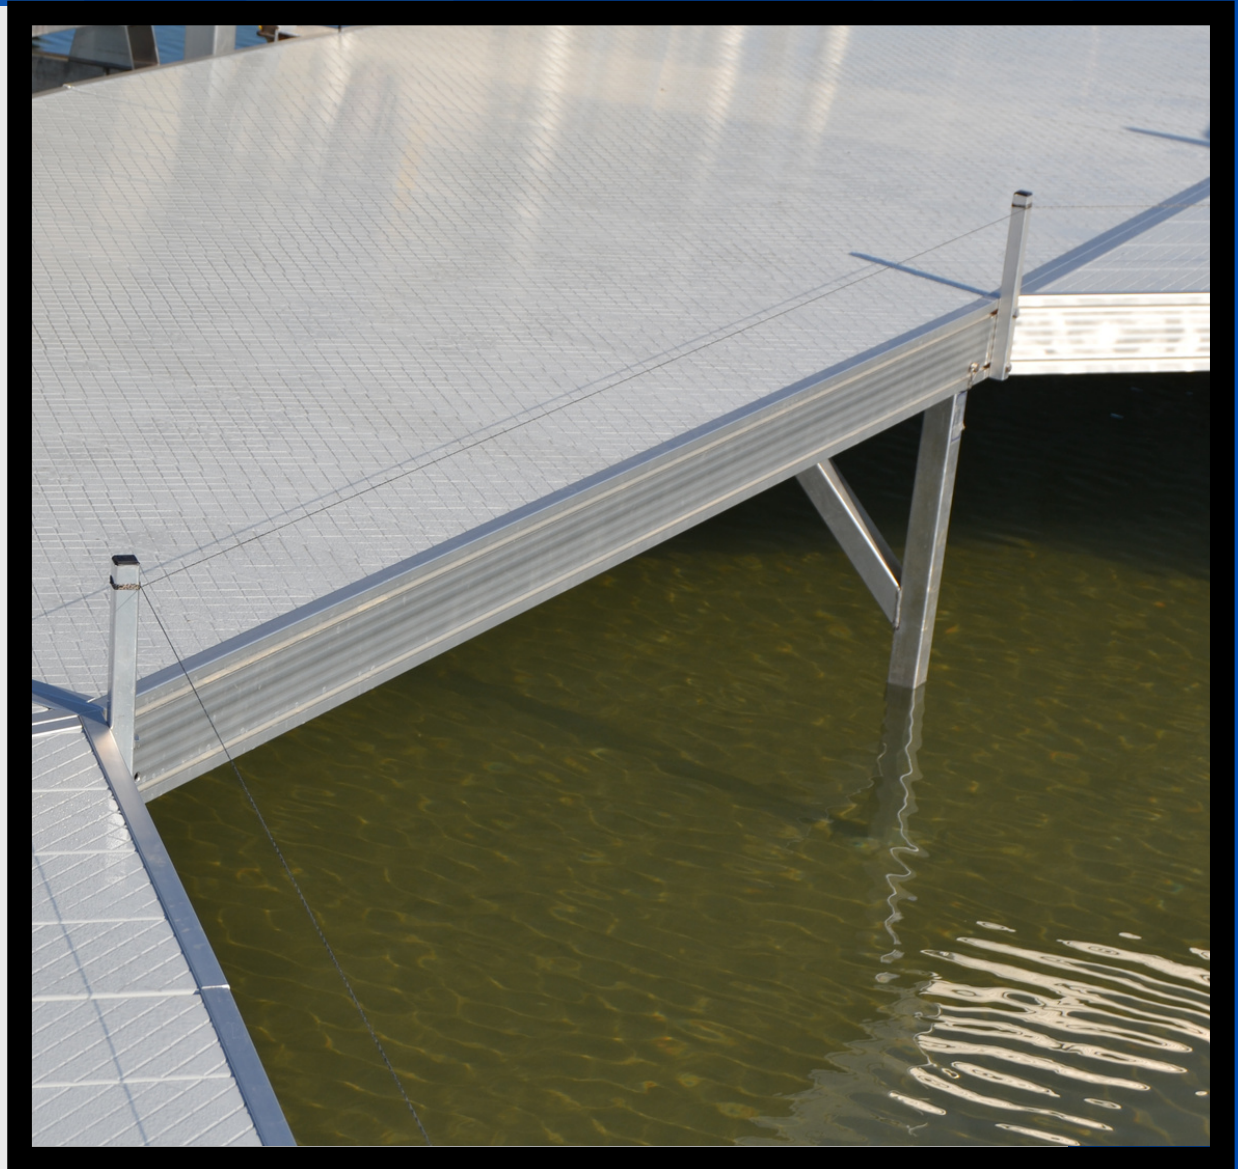

EQUIPMENT ACCESSORIES

Bird Stop Posts

Our posts provide a perfect place to secure bird line. This keeps waterfowl from landing on your dock, keeping it clear of bird droppings!

Solar Lights

These durable lights are solar powered and add light during summer nights on the lake. They can be mounted to the side of the dock or on a post, saving deck space.
